

# ROCELL | KITCHEN SINKS

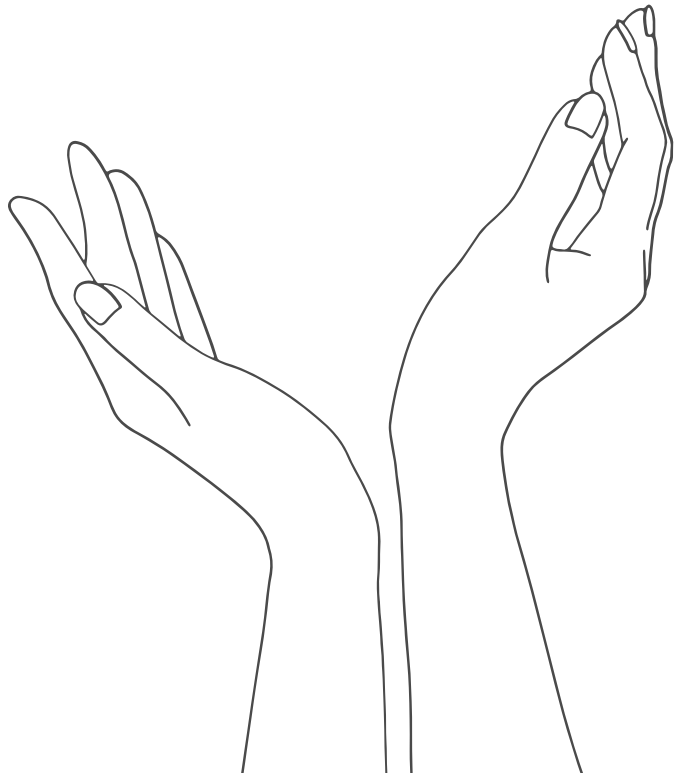

# The Heart of the Home

And the kitchen is truly its heartbeat - a space where we cook, share meals, gather, talk, plan, and celebrate everyday moments. It's a world of its own, an epicentre of warmth and activity that reflects the rhythm of our lives.

Today's kitchens are more than functional spaces - they are open, expressive, and deeply connected to the home's personality. They've evolved into areas of creativity and connection, where design meets lifestyle.

Rocell Kitchen Sinks, crafted & designed in Spain and Turkey, are designed to blend durability with refined aesthetics for the modern home. Made from premium granite and stainless steel, and developed in partnership with POALGI, these sinks feature clean lines, elegant finishes, and a versatile colour palette. Whether you're drawn to timeless craftsmanship or innovative, eco-friendly design, Rocell offers a sink that elevates functionality while turning your kitchen into a true space of inspiration.

Hekla® **poalgi**

## Strength Meets Sophistication

Hekla is a high-performance material designed specifically for kitchen sinks, offering exceptional durability, heat resistance, and impact strength. Its smooth, non-porous surface resists stains and scratches, making it both hygienic and easy to clean. With its refined matte finish and a range of elegant colours, Hekla brings together functionality and modern aesthetics to elevate any kitchen space.
