In addition, we can customize products to exact specifications of your project ;
tailoring to any size, colour, structure or surface finish. It's part of our ideology, that
allows you to have total design freedom no matter where your imagination takes you.

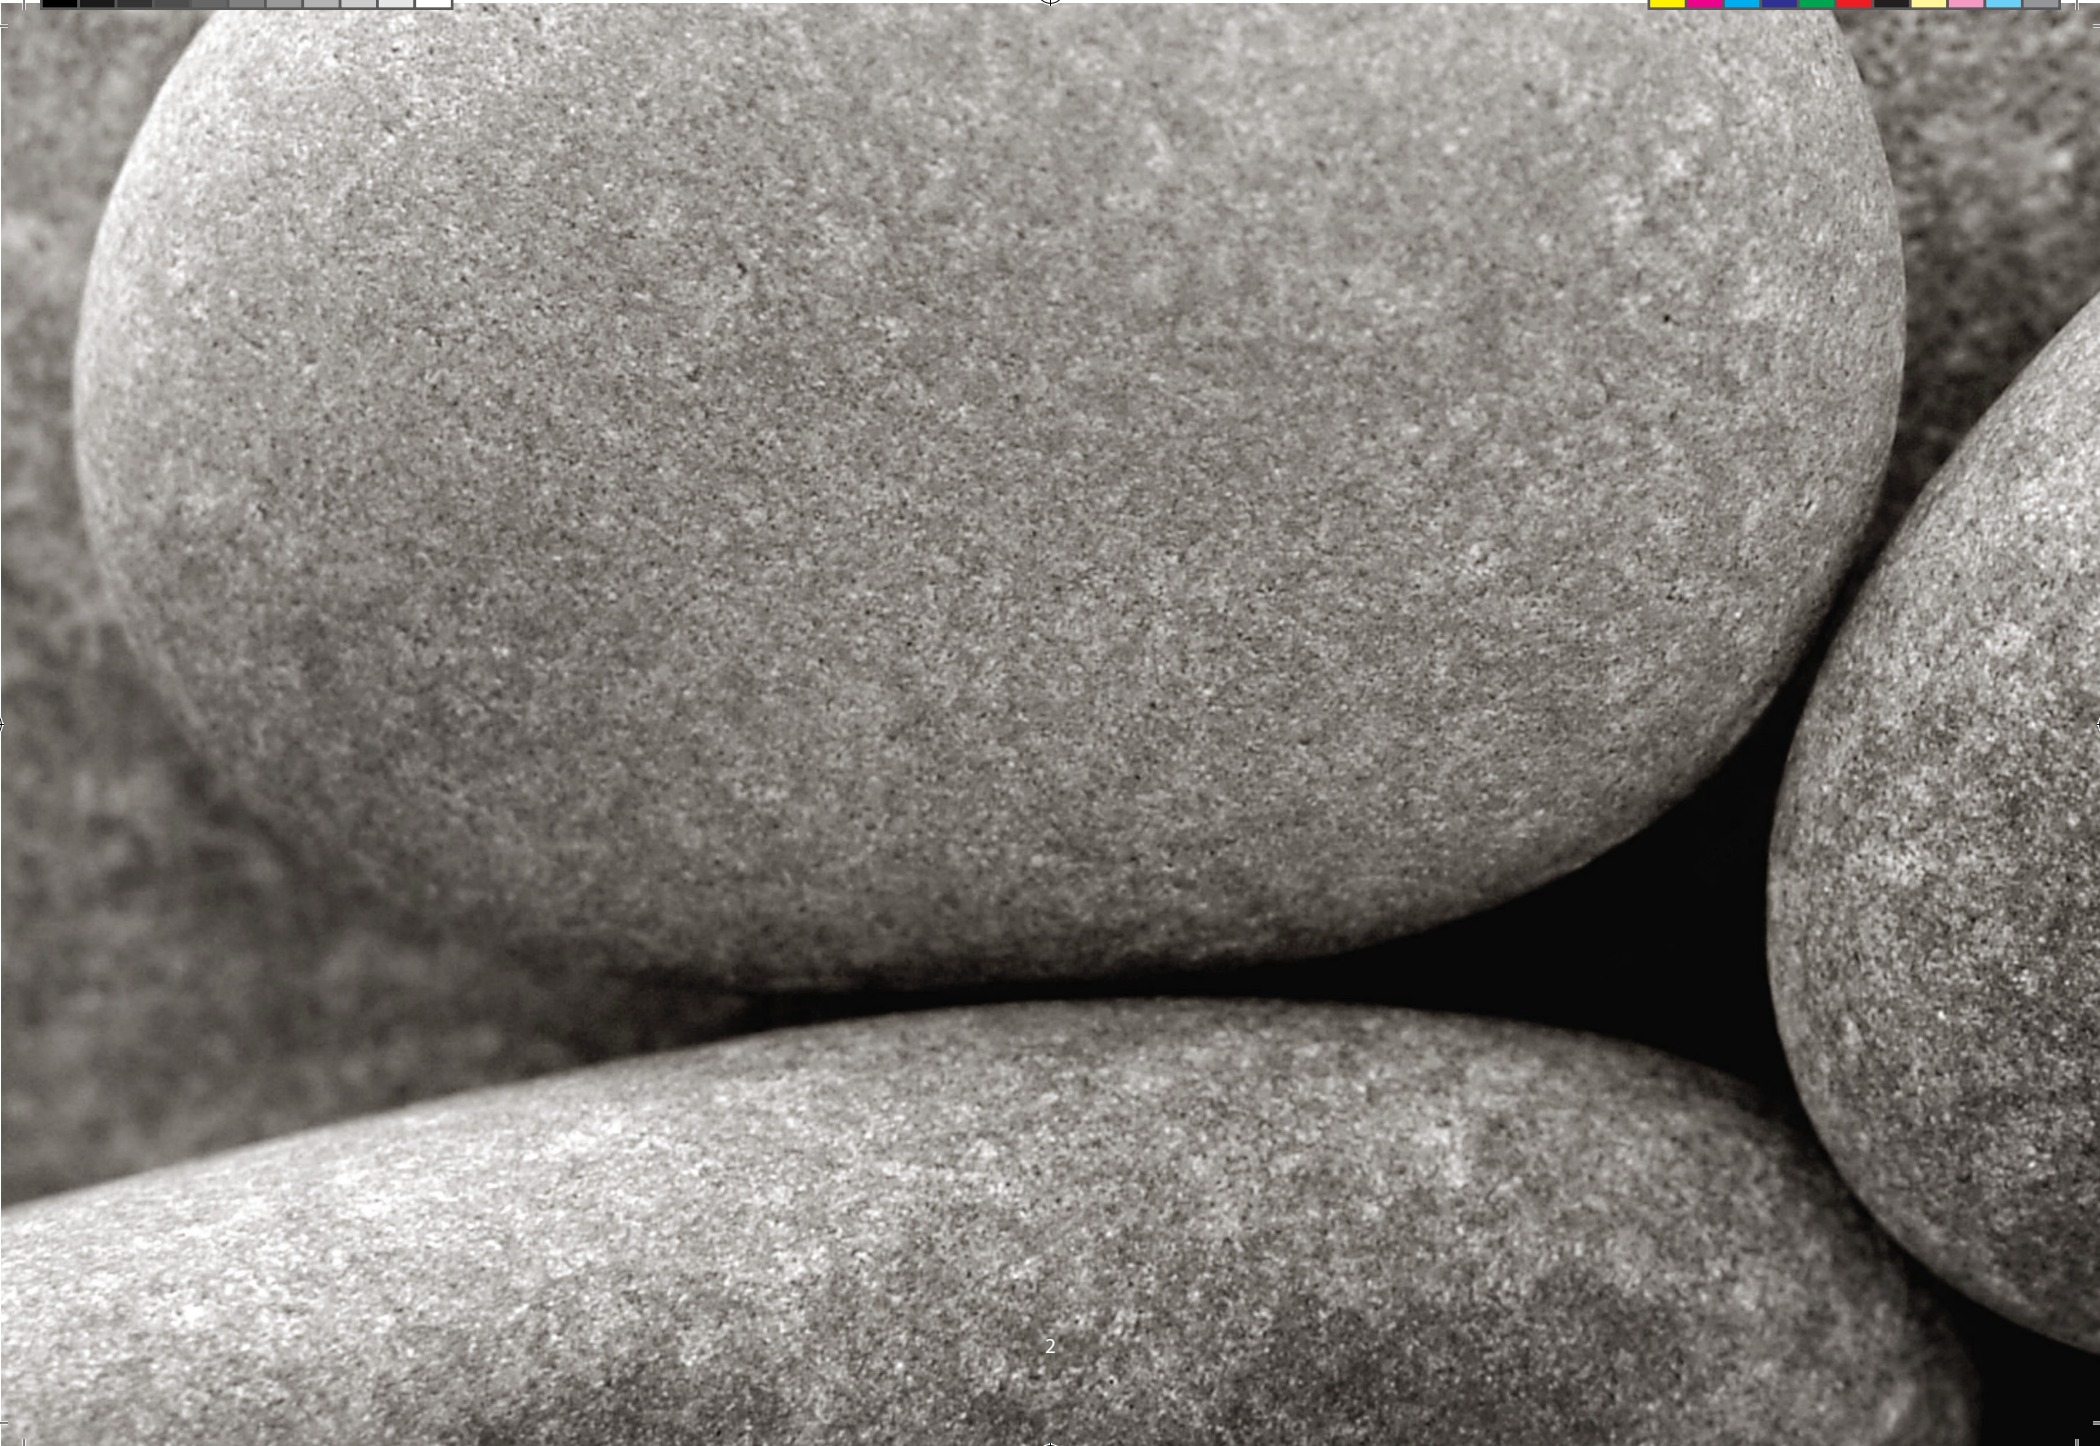

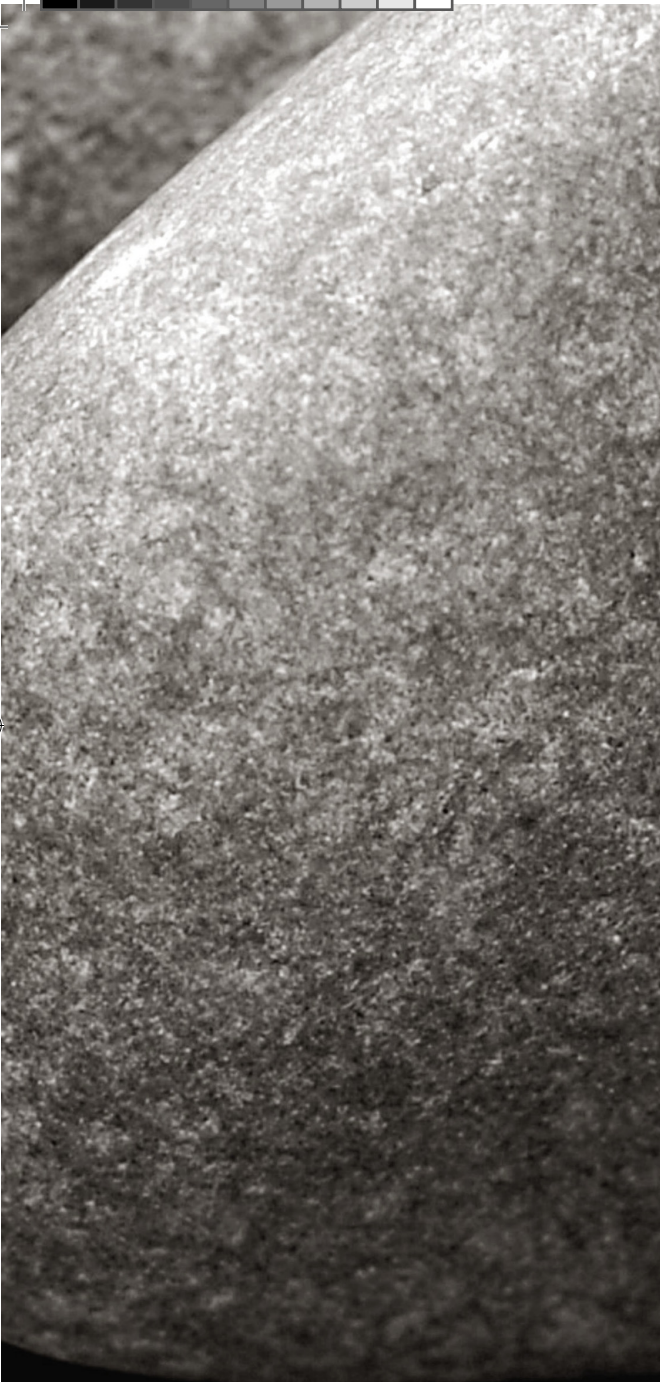

RECREATE YOUR IMAGINATION, ON TILES.

Herein lays the mandate that will transform surface design forever. With a revolutionary new pattern etching technology – that is a culmination of the world's pre-eminent and latest expertise – Rocell introduces the exclusive tile collection.

The universe is now an art that can live in your home. Be it wall, floor or exterior the state-of-the-art colour infused system is capable of producing incredible life-like texture, randomness and colour. Combining highest international accreditations of quality standards and environmental practices, and with the capacity to replicate any masterpiece that resides in your mind's eye onto an eternal canvas we call a Rocell Tile – it is a new world order of creative democracy.

Due to inherent characteristics of porcelain tiles, certain tolerance in size, colour and shade is normal in the industry. All merchandise should be inspected prior to installation and no claim will be honoured after installation.

Royal ceramics lanka plc reserve the rights to modify or cancel some of the models described in this catalogue.

The tiles featured here may vary from the original technical colour specification and are nominal in value, and are subject to change.
